

ICES Advisory 12/2020 - Issue in SB Printing - One time option to regenerate print - reg.

Dear all,

An issue was reported on 14.03.20 and 15.03.20 in the Shipping Bill print where some details/pages were not coming in the LEO Print. The issue came up due to certain changes made at the backend in Shipping Bill processing.

The problem was resolved yesterday and the SB prints have started coming out properly. For the Shipping Bills where LEO was given on or after 14.03.20 and before the resolution was implemented yesterday, a one time option to "Print Old SBs" has been given under the role of EXAM_SUP. Once the same is executed, all such pending SBs will be ready to be printed again and the print out can be taken from the service centre as usual.

Export Shed Superintendents, DEOs and Trade in your jurisdiction may kindly be guided accordingly.
